TECHNICAL SKILLS

Languages

JavaScript, TypeScript, HTML5, CSS3

Frontend

React, Next.js, React Native, Expo

Backend

Node.js, Express, NestJS, REST APIs

Data

MongoDB, MySQL, PostgreSQL, Redis, BullMQ

Tools

Axios, AWS, Docker, Git, GitHub

STRENGTHS

- Team collaboration
- Customer communication
- Problem solving
- Product thinking

EDUCATION

Ebonyi State University 2019-2024

PROFILE

Full-stack software engineer building web and mobile applications with JavaScript, TypeScript, React and Next.js. Project experience includes responsive storefronts, Node.js APIs, and mobile apps connected to REST backends.

PROJECT EXPERIENCE

MarketReach AI - Hackathon Project Mobile app and API integration

Worked on the retailer experience in an Expo and React Native app. Connected retailer listing, creation, profile retrieval and editing to authenticated backend endpoints; mapped API records into app data, added form validation, and verified create and edit changes persisted after refreshing.

Technologies: React Native, Expo, TypeScript, Expo Router, Axios

SELECTED PROJECTS

Cosmo Mobile Spares React / TypeScript

Multi-page phone parts storefront with product browsing, cart, delivery choices, checkout and product management.

Node-Store Node.js / Express / MongoDB

Store API with authentication, user, admin and product routes, image uploads, and verification and password-reset emails.

SIR-KEN-EYEWEAR React / Vite

Responsive eyewear storefront with catalogue, cart, about and testimonial sections, and an order form.

JavaScript utility apps JavaScript / Chart.js

Built a weather dashboard, currency converter and a to-do app that retains tasks after refresh.

JOB EXPERIENCE

Product Manager & Sales Representative Bejork Furniture Store

Understand customer needs, explain product features, compare options and support informed purchasing decisions, building customer-focused communication and product thinking.

TEAM COLLABORATION

Collaborates with developers to clarify tasks, discuss implementation approaches, coordinate contributions, share progress and bring separate pieces together into a working solution.

CERTIFICATION

Full Stack Software Engineer 2024-2025

Spella ICT Hub
